

## FOUR GOOD REASONS TO VOTE TRIDENT OUT

**1 We can't afford it.** The new Trident system will cost up to £75 billion over its lifetime.

**2 70% of Scots don't want it.** All Britain's nuclear weapons are based in Scotland. But a majority of Scots MPs and MSPs have voted against it and Scotland's churches and trade unions are opposed.

**3 It will destroy jobs and services.** Money spent replacing Trident will be at the expense of public sector jobs and services in Scotland.

**4 Nuclear weapons don't defend us.** They make us a target. Most countries don't have them.

Real security comes from jobs and services not weapons of mass destruction.
